CHICAGO—Twelve of Illinois' metropolitan (metro) areas experienced decreases in their over-the-year unemployment rate and eight of the metro areas had increases in nonfarm jobs, according to preliminary data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (IDES).

"Our job growth rate is still half that of the rest of the country," said IDES Director Jeff Mays. "Most of our job growth is concentrated primarily in the northeast corner of the state while downstate job growth continues to lag."

Illinois businesses added jobs in eight metro areas, in which the largest increases were seen in: Elgin (+2.1 percent, +5,300), Rockford (+1.9 percent, +2,900), and Lake-Kenosha (+1.6 percent, +6,800). Total nonfarm jobs in the Chicago-Naperville-Arlington Heights Metro Division increased (+1.2 percent or +44,900). Illinois businesses lost jobs in five metro areas including Carbondale-Marion (-2.5 percent, -1,400), the Quad Cities (-2.3 percent, -4,200), and Decatur (-1.5 percent, -800). The industry sectors recording job growth in the majority of metro areas were:

Retail Trade (nine of 14), Transportation, Warehousing and Utilities (nine of 14), Education and Health Services (eight of 14), Leisure and Hospitality (eight of 14), and Government (eight of 14).

Not seasonally adjusted data compares July 2016 with July 2015. The not seasonally adjusted Illinois rate was 5.6 percent in July 2016 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Nationally, the not seasonally adjusted unemployment rate was 5.1 percent in July 2016 and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits. 656**16

Metro East Highlights

Help Wanted

Area employers advertised for 5,000 openings in July and approximately 84 percent sought full-time employment, according to Help Wanted OnLine data compiled by the Conference Board. It is a global, independent business membership and research association. Employers actually need more workers than the help wanted ad indicates because some industries, such as construction, typically do not advertise job openings.

The July 2016 unemployment rate for the Illinois Section of the St. Louis Metropolitan Statistical Area was 5.7 percent, a decrease of (-0.7) from the July 2015 rate of 6.4 percent. The data is not seasonally adjusted.

The number of employed individuals increased by 6,725 to 331,477 in July 2016 from 324,752 in July 2015. The labor force increased by 4,782 to 351,666 in July 2016 from 346,884 in July 2015. In July 2016, there were 20,189 unemployed people in the labor force. This is a decrease of 1,943 compared to the July 2015 total unemployed, 22,132.

Over the year, nonfarm payrolls increased by (+500). Employment increased in Retail Trade (+900), Transportation, Warehousing and Utilities (+400), Professional and Business Services (+300), Mining and Construction (+100), Leisure and Hospitality (+100), Wholesale Trade (+100), and Government (+100).

Manufacturing (-1,300), Financial Activities (-100), and Educational and Health Services (-100) posted job losses while the Information and Other Services sectors showed no year over year change.

Note:

- Monthly 2015 unemployment rates and total non-farm jobs for Illinois metro areas were revised in February 2016, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.
- LWA— Local Workforce Area 21 is composed of Calhoun, Greene, Jersey, Macoupin, Montgomery, Morgan, Scott and Shelby Counties.
LWA— Local Workforce Area 22 is composed of Bond and Madison Counties.
LWA— Local Workforce Area 24 is composed of Clinton, Monroe, Randolph, St. Clair and Washington Counties.
